Dog Show Photography Prices

The photos I take on the day at WSSCSW shows are done free of charge to the club for them to use on their website I make no money out of it at all.

At Championship Shows only, a print is supplied to each class winner courtesy of the club.

You are free to view the photos online through the club's website (www.wsscsw.co.uk) and you can "share" them to social media. However, you should not download any photo to your computer and upload it back to your own website, social media page or to produce your own prints or reproduce in a printed publication.

Purchasing a print does not give you permission to reproduce it either online or in print.

Simple: (removing lead or foreground debris for example)..... **£12.00**

Complex: We can produce a unique image for you by removing the handler, adding a different background or combining several photos into one – let us know what you want and we'll provide a quote for the work and let you see a proof copy to approve before finalising

Note: all photos are carefully chosen from the many taken on the day, cropped, colour balanced and a certain amount of retouching done to get rid of obvious debris that may fall within the frame. You only get the best possible result - but if there is any element of the photograph you are not happy with then let us know - if it's possible to rectify, we will.
